BioTel Care[®] Connected Blood Glucose Monitoring System

Managing diabetes can be tough—but it doesn't have to be. ActiveCare[™] provides you with all the tools, supplies and support you need to stay on track. 24/7 alert monitoring provides you with an outreach call anytime you experience an extreme high or low reading.

Your connected meter features:

- Easy-to-use, responsive color touchscreen
- Logs automatically sent to a secure online portal
- Responsive messages to help you make informed choices
- On-screen summary graphs, testing goals and other tools

Start saving with this health benefit offering all the testing supplies you need with no hidden costs.
