1. Healthcare FSA (*for those enrolled in the PPO plan*)

- A Healthcare Flexible Spending Account, or "FSA," is a pre-tax benefit account that you can use to pay for eligible medical, dental, and vision care expenses that are not covered by your health insurance plan.

2. Limited Purpose FSA (*for those enrolled in the HDHP*)

- A Limited FSA is a type of FSA that only covers certain expenses that typically include vision, dental, or OTC dental and vision products. A Limited FSA is often designed to be compatible with a Health Savings Account.

3. Dependent Care FSA

- The Dependent Care FSA allows employees to set aside tax-free money toward dependent care costs. These costs could be toward daycare, care for elderly or disabled dependents, or toward before and after school care.
